

GO MY CODE WEB DEV HACKATHON

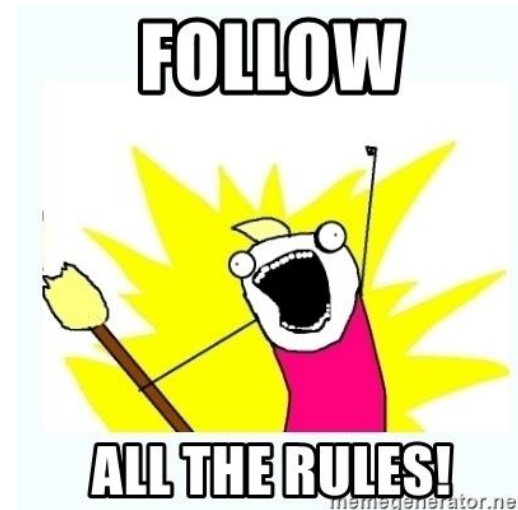

16-17th of July 2018

Tunis, Sousse, Sfax

SOME RULES

- Throw garbage into bins
- **Fresh Code**, we all start coding at the same time. This is done to keep things fair
- **Code Review**-Winning teams will be subject to a code review
- **Team Size**- Teams of up to 2-3 humans are allowed
- **Have fun**- It's a hackathon! Use whatever languages or hacks you have in your arsenal!

Remember that hackathons are like marathons. Some people go to compete but most people take part to better themselves and have fun. Whatever the reason is you're at a hackathon, make sure you're upholding the hacker spirit by collaborating with other teams, helping beginners, and having fun.

JUDGING CRITERIA

Teams will be judged on these three criteria. Judges will weigh the criteria equally. During judging, participants should try to describe what they did for each criterion in their project.

- **Technology & Innovation** : How technically impressive was the hack?
- **Design**: Did the team put thought into the user experience? How well designed is the interface? How beautiful the CSS or graphics are? **(TEMPLATES are not allowed)**
- **Learning**: Did the team stretch themselves? Did they try to learn something new?

THEME

Online shopping website

- You are going to make an online shopping website that present some products to internet users (you are free to choose what products your website provide)

SPECIFICATIONS

- You are free to do the design/ features you want.
